- PHP
- SQL

---

## WORK EXPERIENCE

### Junior Programmer

November 2025 - March 2026

Scotland Food Group Corporation

- Develop and maintain web applications, including implementing user interfaces with JavaScript frameworks and reviewing code for quality and efficiency.
- Optimize MSSQL queries and database structures to ensure data integrity, enhance performance, and support troubleshooting of complex issues.
- Perform thorough testing, debugging, and issue resolution to maintain reliable applications.
- Collaborate with designers, project managers, and developers to align solutions with business goals, providing technical recommendations when needed.
- Prepare and maintain clear technical documentation while staying updated on industry trends and sharing best practices to improve team efficiency and code quality.

### Java Developer

March 2026 - Present

Vertere Global Solutions

- Assist in defining and reviewing the technical requirements for the applications, including security, integration, and quality requirements.
- Create or assist in creating micro designs.
- Configure, build, and test the application technical components.
- Work with other developers, functional teams, and the technical team to make sure that the configuration and custom components meet application requirements.
- Participate in code and quality reviews and testing.

---

## EDUCATION

### Mapua University

August 2021 - January 2025

Bachelor of Science in Information Technology

- Specializing in Application Development
- GPA: 1.8/88-89
